

## E. NOI FELLOWSHIP REPORT – LONG-TERM BENEFITS

NOI Fellowship Report concerning the evaluation of the long-term benefits must be sent no later than 12 months after the end of the fellowship to [grant@noisk.sk](mailto:grant@noisk.sk). Specifically, indicate the scope of work during the fellowship in the report and highlight the achievement of goals together with the possibility of knowledge transfer for the Oncology in Slovakia.

NOI Grant with its assigned number must be acknowledged in all publications or presentations related to the fellowship results, and a citation of the publication or information about the conferences needs to be sent to [grant@noisk.sk](mailto:grant@noisk.sk).

**Name and titles of NOI Fellow:**

Jana Tabišová, M.D.

**Contact Address of the Home Institution:**

East Slovak Oncology Institute, Rastislavova 43, 041 91 Košice

**NOI Fellowship Title and Objectives:**

Soft tissue tumors – gaining clinical experiences in diagnostics and treatment, implementation of the experience in East Slovakia Oncology Institute, getting to know currently ongoing clinical studies and possibility of cooperation and participation in clinical trials.

**NOI Fellowship Dates:**

1.8.2022-1.9.2022

**Contact Address of the Host Institution:**

Fondazione IRCCS Istituto Nazionale dei Tumori di Milano, Via Giacomo Venezian 1 – 20133 Milano, Italia

**Overview of NOI Fellowship experience:**

During my monthly stay, I had the possibility to work and spend time at one of the best oncologic institutes in Europe and one of the best centers specializing in sarcoma cancer. Thanks to Professor Casali and my mentor Dr. Provenzano, every day we met a lot of patients undergoing treatment at the Department of Clinical Oncology, and later we went to outpatient. Every week we had a multidisciplinary meeting where I met surgeons, and oncologists, where new patient cases were presented. Thanks to this experience, my knowledge about sarcomas improved and there is still a chance to make conversation and ask for expert opinions from the Institute about our new patients.

**Possible Knowledge Transfer for the Improvements in Oncology in Slovakia:**

Thanks to my stay at the Institute, I made a presentation for DMO in 2022. After this presentation, we had some consultations with my colleagues from other departments in Slovakia. I hope we can make also a sarcoma group in Slovakia in the future. With my Italian colleagues, I took part in the BEACON project in the EU whose ambition is to avoid cancer disparities in the EU. Hope, this is not the end but the beginning of great cooperation between Slovakian and Italian oncologists.

**Place and Date:** Košice, 31.8.2023
